About INTUNS

INTUNS specializes in teaching IT courses and other future-oriented courses such as business management and international trade. INTUNS offers degree courses, accredited, and recognized by various certifiers.

In its learning system, INTUNS provides learners with a platform for distance learning and collaborative work. It also partners with various MOOC (Massive Online Open Courses) platforms that allow the accumulation of new knowledge and skills such as LinkedIn Learning and Coursera.

A personalized support plan defines the pedagogical measures that allow the learner to follow the lessons provided for in the program corresponding to the cycle in which he or she is registered. We also offer individual coaching to better assist the student in acquiring the skills required in their course.

The 9 strengths of INTUNS

- Intensive courses.
- Customized programs.
- Personalized learning approach.
- Validation of skills.
- Free learning courses on LinkedIn Learning and COURSERA.
- Opportunity to take courses without interfering with your work commitments.
- International mobility: combine online courses with a classroom-based academic program.
- Individualized support.
- Network of partner companies.

Our course

Choose your future profession among the most in demand

INTUNS training courses enable students to acquire technical proficiency, a scientific approach, autonomy, to take responsibility and to carry out missions.

► Level 5

Information Technology L5 Diploma

Information Technology L5 Diploma

— Presentation

This course is designed to ensure that each learner is 'business ready': a confident, independent thinker with a detailed knowledge of Information Technology, and equipped with the skills to adapt rapidly to change. The qualification is ideal for those who have started, or are planning to move into, a career in private or public sector business. Successful completion of the Level 5 Diploma in Information Technology will provide learners with the opportunity to progress to further study or employment.

— Objectives

The objective of the OTHM Level 5 Diploma in Information Technology is to provide learners with an excellent foundation for a career in a range of organisations. It is designed to ensure that each learner is 'business ready': a confident, independent thinker with a detailed knowledge of Information Technology, and equipped with the skills to adapt rapidly to change.

— Units

Software Engineering
Database Systems
